UNIVERSAL SMART SCHOOL

Universal Smart School

## CHAIRMAN'S MESSAGE

We live in unprecedented times. We all have to act and brace ourselves accordingly. As we all know that the pandemic has hit the humanity as bad as anything, the whole world order is undergoing a change and new permutations and combinations are being set up in each and every walk of life. Priorities and preferences have changed. The educational field is no exception. The education arena too needs to evolve as per the changing times. The focus has shifted from offline to online education. With all these in mind we commence the new session. Let's enter the new era of education which calls for challenges of different sorts and for tasks that we have not undertaken before. Creative and dynamic minds are the need of the hour.

I welcome you to our fraternity. Come and be a part of this fantastic educational venture in unusual times in an exceptional manner to enlighten yourselves.

**Dr. Gurpreet Singh**  
Chairman, Universal Group of Institutions

## Universal Smart School

Welcome to Universal, where you grow with learning.

Universal Smart School is a really high end flagship educational venture undertaken by Universal Group of Institutions to transfuse the ultra modern digital education to the kids. To begin, the Smart School will have classes from nursery to grade 7 for its preliminary 2021-22 session, which will soon be upgraded by smart education for higher classes in the upcoming sessions. The curriculum will be as per the C. B. S. E guidelines. UGI focuses both on the internal growth and external development of its disciples hence it is committed to provide them with an ultra modern growth infrastructure and an overall congenial environment for their overall improvement. When it comes to quality and excellence there is no looking back nor any compromises. Our foremost concern is to foster our budding ones with the best possible start in life and to make them independent and responsible individuals.

### Our Vision

Our vision is to make education not just learning but to convert it into an experience of lifetime. By evolving as per changing global scenario we extract best out of the pupils so as to push them to be the best version of themselves,

### Our Mission

Our mission is to impart useful and valuable education in a simple yet effective manner so that the disciple is able to meet and deliver the futuristic professional needs and challenges and excel exceptionally in the professional arena.

### Tutelage – Emphasis on Pupil Focussed Learning

The emphasis of transfusing education in Universal Smart School is entirely focussed on evolution of the students keeping in view the futuristic professional demands and business world needs. Modern, innovative and distinct teaching methods are devised consistently so that the best could be brought out of the students. Also to optimize their natural skills and abilities to the maximum so as to couple these with the modern techniques and latest methods. USS bears a hand for children to understand that positive caring environment is essential for overall development of personality. By inculcating sex education in the general curriculum, the school makes the children understand that they are responsible and master of their own bodies. This will further allow them to safeguard themselves and to manage their relations in a healthy manner.

### Integrating Technology

As it is well said that "Technology allows us to locate our destination and get where we are going." Now-a-days as far as education is concerned, being tech savvy is the need of the hour as wherever we go, whatever we do, it is useful in every bit of our lives. To divulge the top of the line digital education to protégée, the USS provides with the latest tools and technology so that pupils are always updated and never lag behind in terms of modern techniques, tools and its usage. The expertise of most sought after professionals from leading organizations is arranged for. Their interaction with the students is made available to equip pupils with professional tools and skills keeping in mind the future business trends and market sentiments. Effective technology integration not only helps the students to be thoughtful but it also changes the classroom equation and encourages project-based learning.

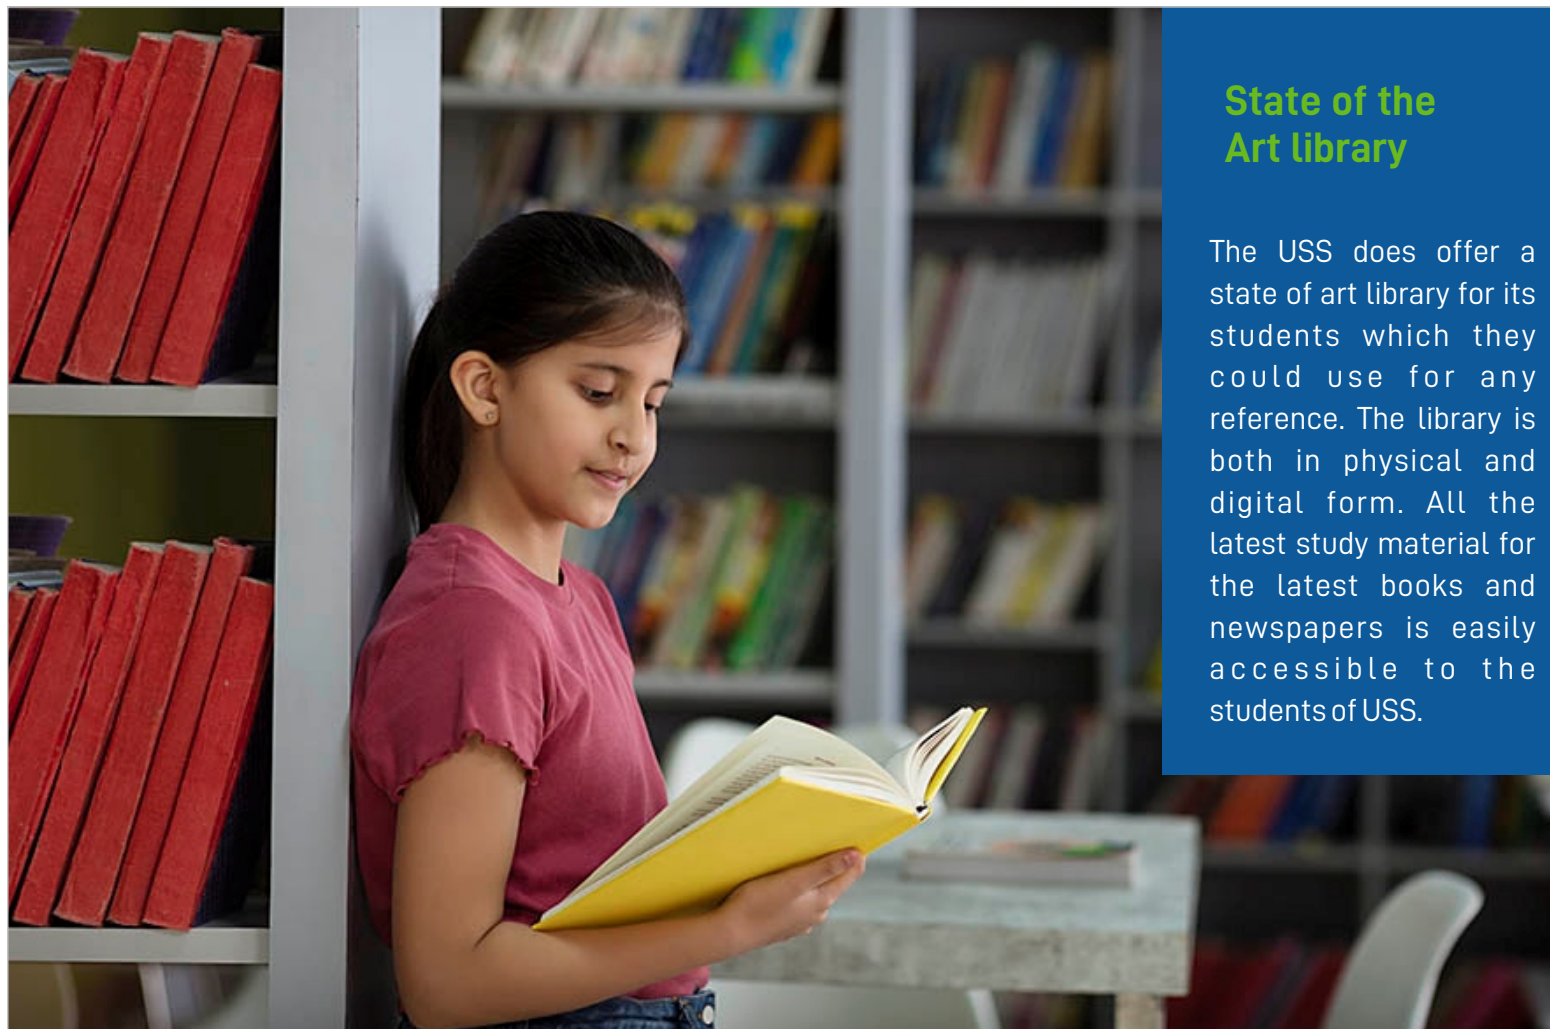

### Assessment and Evaluation

According to Gronlund and Linn, "Evaluation is a systematic process of collecting, analysing and interpreting information to determine the extent to which pupils are achieving instructional objectives." Continuous assessment and evaluation of students is a vital part of divulging smart digital education. The Universal Smart School will detect whether discrepancy or shortcoming is there in overall development of pupils, how it could be taken care of so that they are able to evolve into the best version of themselves.

### Hands on Learning

Specialized and ultra modern learning facilities for various streams like Science, Commerce and Humanities etc. are accessible. Special labs for science students and specialized commerce and humanities centres will be available. In-house debates and seminars along with poetry recital are regular happenings at USS.

### State of the Art library

The USS does offer a state of art library for its students which they could use for any reference. The library is both in physical and digital form. All the latest study material for the latest books and newspapers is easily accessible to the students of USS.

### Counseling and Psychotherapy centers

To deal with any sort of dilemma or confusion that might be acting as a blockage for the students and creating problems in their learning the USS has got dedicated counseling and psychotherapy centers. Counseling is done on students to improve their focus and direction.

### Fully equipped Medical room

To ensure the overall well being and to look after the health and hygiene of the students the USS has a fully equipped medical room for any sort of emergency situation that may arise for its student or staff. Immediate first aid is always ready at the medical room along with the trained medical staff for any crisis.

### Fleet of modern AC buses-GPS and CCTV enabled

To ensure the flawless transportation and convenient travel of students USS arranges for the fleet of modern AC buses. The buses of USS are equipped with ultra-modern tools and facilities like GPS and CCTV to ensure the complete safety of students.

## Exceptional Sports Infrastructure –Promoting love for sports

Special emphasis is laid on both the indoor and outdoor sports like Cricket, Tennis Football, TT, Chess etc. so that there is development of teamwork, sporting spirit and growth in coordination amongst the students. Various inter-school sports competitions are conducted to spot the talent of students in a particular sport and to groom the greenhorns in that particular category so that the pupil could excel in that sport and make name for themselves and get fame for Universal Smart School.

## Societies and Clubs

The Universal Smart School incorporates various clubs and societies so as to give an outlet to the creative instincts of the students and to harness and develop their distinctive interests and hobbies. Few of our prominent literary societies and recreational clubs are enlisted as following:

- Dance Club
- Drama Club
- Debating Club
- Music Club
- Literary Club
- Science & Environment Club
- Computer Club

## Performing & Visual Arts

For out flow of passion and interest a sound platform for visual and performing arts is needed. The USS fully understands this so it is really inclined to arrange for the various visual and performing arts platform like:

**DEED (Debating, Elocution, Extempore, Dance/Drama)** classes are held throughout the year and the students' talents are showcased at the various inter – house, intra-school and inter-school state and national events.

- Dancing
- Singing
- Mono-Acting
- Debate Drama

## Academia-Industry Interface

According to Peter Riddle, who is an educationist and founder of ELTC, "Positive relationships with teachers become game changers for kids." The companionship amongst teacher and student plays a crucial role in student's academic and social development. There is an arrangement at USS via which the students can interact with the professionals in various industries so that they could relate with them and work in liaison with them in future. This actually works as a portal for student to transit from a student to a full-fledged professional.

## Educational and Industrial Visit

To get a real feel of actual professional world and to provide a real time glimpse of corporate business arena, educational visit for working professionals within institute and industrial visit for students are often arranged. Thanks to this, interaction between them is developed and teaching of the students is extended beyond the classroom allowing smart learning to surpass the institution itself. Throughout the year various educational outings are arranged for children. These educational outings help in building the child modest and making them familiar with our history, religion and heritage.

## Partnership with Parents

The Smart School arranges for a really positive and healthy interaction with the parents so that parents are aware of their ward's progress and their shortcomings if any. With this they can provide the suggestions to overcome them along with help and consultation of our expert and committed faculty. Statistics have shown that positive communication between parents and teachers enhances the academic performance of the child. While teachers are expert of teaching, parents are life giving force for their child. Both when come together can do miracles. We value parent's concern towards their wards education and are available for discussions anytime.
